

For Immediate Release

New Gas Control Equipment available exclusively from The West Group

The West Group are pleased to announce that they are now the sole distributors for the NTC series of innovative gas control products. This includes the new range of Pneuchange and Pneuchange-Trio automatic CO₂ cylinder change-over units for incubators and other gas dependent equipment.

The NTC Pneuchange and Pneuchange Trio series are:

- Compatible with all makes and models of incubators
- Require no mains electricity
- Are compact and easily installed
- Require no manual reset
- Have an audible bottle-change alarm
- In daily use worldwide

Other gas control products also available for supply include:

- Chromachange – cylinder change-over units for gas chromatography
- Industrial change-over manifolds
- Gas cylinder regulators for all laboratory gases
- Stainless steel regulators for high purity applications
- Gas handling equipment of all types
- Custom built equipment to specific customer requirements

For further information on the above product range please visit our website at www.westgroup.co.uk or if you would prefer to speak to a sales representative or have a specific gas handling enquiry please contact:
